System PID : 181556		City : New York City	
Email Id : ray@helixds.com		State : NY	
Date of Birth : 01/01/1977		Zipcode : 10028	
Submitted By : Self		Gender : Male	
Health Risk			
By completing this assessment, I agree to share this information with my provider and the agree to an e-visit if necessary.			
Health Score :32			
Health Risk : Medium Health Risk			
Health Risk	Risk Level	Answer	Description
Physical Activity	Low	5	Physical activity can be defined as any movement of the body that requires energy expenditure. This includes any motion you do through the day excluding sitting still or lying down.
Tobacco Use	High	Yes	Tobacco use may be defined as any use of the tobacco plant leaf and its products
Alcohol Use	Medium	4	Alcohol use disorder is a pattern of alcohol use that involves problems controlling your drinking, being preoccupied with alcohol, continuing to use alcohol even when it causes problems.
Seat Belt Use	High	No	A seat belt is a vehicle safety device designed to secure the driver or a passenger of a vehicle against harmful movement that may result during a collision or a sudden stop.
Life Satisfaction	Medium	Some of the time	Life satisfaction is the way in which people show their emotions, feelings and how they feel about their directions and options for the future.
Anxiety	Medium	Some of the time	Anxiety is a normal and often healthy emotion. However, when a person regularly feels disproportionate levels of anxiety, it might become a medical issue.
Stress	Medium	Sometimes	Stress is the bodys reaction to any change that requires an adjustment or response. The body reacts to these changes with physical, mental, and emotional responses. Stress is a normal part of life. You can experience stress from yours environment, your body, and your thoughts.
Pain	Medium	Some	A pain scale is one way for you to measure your pain so that doctors can help plan how best to manage it.
Perception of General Health	Medium	Good	Perception of general health refers to the perception of a persons health in general. Health means not only the absence of disease or injury but also physical, mental and social well being.
Sleep	Low	7	Getting enough sleep is important, but good sleep quality is also essential. Signs of poor sleep quality include feeling sleepy or tired even after getting enough sleep, repeatedly waking up during the night, and having symptoms of a sleep disorder (such as snoring or gasping for air). Better sleep habits may improve the quality of your sleep. If you have symptoms of a sleep disorder, such as snoring or being very sleepy during the day after a full night's sleep, make sure to tell your doctor.
Blood Pressure	High	Don't know/not sure	Blood pressure is related to the force and rate of the heartbeat and the diameter and elasticity of the arterial walls.
Cholesterol	High	High (240 or higher)	Cholesterol is a type of fat found in your blood. Your liver makes cholesterol for your body. You also can get cholesterol from the foods you eat. Meat, fish, eggs, butter, cheese, and milk all have cholesterol.
Blood Glucose	Medium	Borderline high (100-125)	The blood glucose level is the amount of glucose in the blood. Glucose is a sugar that comes from the foods we eat, and its also formed and stored inside the body.
Hemoglobin A1c level	Low	Desirable (6 or lower)	The A1C test is a common blood test used to diagnose type 1 and type 2 diabetes and to monitor how well youre managing your diabetes. The A1C test goes by many other names, including glycated hemoglobin, glycosylated hemoglobin, hemoglobin A1C and HbA1c.
Overweight/Obesity(BMI)	High	30.34	BMI is an screening for weight, for example underweight, normal or healthy weight, overweight, and obesity.

OPPORTUNITY HIGHLIGHTS
